Line 6 Allure Pack IRs

What is the Line 6 Allure Pack?

The Allure Pack is a set of free IRs (impulse responses) created by Dan Boul of 65 Amps (http://65amps.com). Its goal is to emulate the unique dynamic mic'ing style of a world-famous producer known for his impressive guitar tones.
The IRs

- Allure_59_Tweed_P10N.wav
- Allure_64_A30_G12.wav
- Allure_64_USDeluxe_P12N.wav
- Allure_67_Brit_Greenback.wav
- Allure_70s_WhoWatt_100.wav
- Allure_90s_Cali_V30.wav

Loading the Line 6 Allure Pack Into Helix

Loading custom impulse responses requires connecting to the *Helix* application in your Mac® or Windows® computer. The *Helix* application is available as a free download from line6.com/software. To load IRs into non-Helix hardware or software, see your product's documentation.

1. **Connect Helix (or Helix Rack) to your computer via USB and open the *Helix* application.**

2. **Click the Impulses tab.**

3. **Drag one or more Allure IR files directly into the *Helix* app's Impulses list.**

4. **Create an Impulse Response block.**

5. **With the Impulse Response block selected, turn Knob 1 (IR Select) to choose the desired IR.**
