Browse our big selection of electric guitar strings from world-class manufacturers like D'Addario, Fender, Ernie Ball, Dean Markley, Elixir and Dunlop. Whether you prefer classics such as Ernie Ball's Slinky strings or GHS Boomers, or the latest technological advancements like Elixir's anti-rust Nanoweb coated strings, you'll find them all here. From D'Addario, we have EXP coated or nickel wound strings, and also their stainless steel flat wound varieties. GHS offers their popular round wound Boomers series and their big core nickel rockers. Elixir's Polyweb and Nanoweb coated strings are available, as are Fender's nickel-plated steel, stainless steel and pure nickel wound strings.

The legendary and wildly popular Ernie Ball Slinky series is well represented, with their regular 6 string baritone, not even, beefy, power, skiny top/heavy bottom, hybrid, super and extra "flavors" that feature their signature custom gauges. They are the industry leaders in providing guitarists with the widest range of mixed gauge strings for a highly specialized variety of sounds and tonal quality. For celebrity endorsements, there are the Dean Markley Yngwie Malmsteen electric guitar strings and Gibson's B.B. King Pure Nickel Signature Series. DR produces their Black Beauties, which are black electric guitar strings, hand coated with a special lacquer that resists corrosion.

Our Customers Say
[View All Testimonials](#)

"Fast shipment, nice strings.....thanks"
